_PARIS AND BERLIN **BOTH CLAIM GAINS ON ALSACE HEIGHTS**

Nine Attacks Repulsed, Is the Report of French War Office.

DENIED BY GERMANS.

Berlin Asserts That Six French Attacks Were Repulsed by Bavarians.

PARIS, July 22 (via London),-The following communication was issted to-day by the French War De-"There were some artillery actions

in Artois, in the Argonnes, between the Meuse and the Moselle, in the neighborhood of Esparges and in the forest of Apremont.

"During the night of the 20th and 21st and the day of the 21st there ten miles west-southwest of Colmar). An attack by us was followed by nine German counter attacks, despite their heavy losses. Two battalions of chassours held the enemy's troops and inflicted heavy losses upon them. We captured and held a trench about 150 metres in length and maintained all our previous positions. To the north of Muenster our forces organized the positions they had conquered a the crest of La Linge. In this ighting we took 107 prisoners.

"Our aviators dropped eight bombs of 90 and four of 150 millimetres on the station of Autry, to the northwest of Rinarville (in the Argonnes). "In the Dardanelles quiet has prevailed since our success of July 12

BERLIN (via London), July 22.— The German War Office to-day gave out the following statement:

"To the west of the Argonne our troops are further progressing. Vigor-ous artillery combats took place be-tween the Meuse and the Moselle. South of Leintrey French attacks col-lapsed before the obstacles in front of our advanced positions.

"In the vosges yesterday the enemy attacked six times southwest of Reichsacker Kopf, but was repulsed with sanguinary losses by the Bavarian troops. Counter attacking, we recaptured a portion of our trench, which was in the hands of the enemy, taking, 127 Alpine, troops, prisoners.

SHE HAS SUPPLIES

Good Crops, Plenty of Meat, Copper and Lead, Says Official Statement.

BERLIN, July 22, by wireless to Sayville.—The Overseas News Agency to-day gave out the following:

"Official investigations have established the fact that Germany is amply of the individual reader. provided with all raw material neces sary to continue the war for a long time to come. Good crops are furnishing sufficient quantities of breadstuffs, vegetables and potatoes, even permitting a considerable increase in cattle and swine, the number of which had been artificially decreased to guard against a scarcity of potatoes and fodder. The production of ment is thus increased. There are plenty of vegetable substances to produce necessary oils and fats.

"Of greater importance is the certainty that Germany is producing and inclined to fret and worry. One enough lead to satisfy all demands, of her pet habits is to lie awake at Besides the large reserve stores, there | night are immense quantities of lead pipes mental disturbance about the events which are easily replaceable with iron. The stores of copper are large enough to manufacture all shells and shrapel far beyond the probable duration

Even if the prediction of Germany's enemies that the war will be of long duration should prove true, the copper now in private use could be replaced easily with other mate-Statistics show that the amount

rials. Statistics show that the amount of copper used in roofs, household utensils, pots, plates and boilers is more than 2,000,000 tons, which is sufficient to continue the war for many years.

"According to a newspaper despatch from Russian Headquarters which was passed by the rensor, the Russian armies have lost 15,000 machine guns, the greater part captured thine guns, the greater part captured by the Germans and Austrians and others ruined by the technical inca-pacity of the men. The Russian Government has prohibited the mailing of official casualty lists of officers

WHAT EVERY WOMAN SHOULD KNOW!

How to Keep Well, Keep Strong and Keep a Perfect Figure, Told in a Series of Illustrated Lessons

To-Day's Illustrated Lesson Explains Both Causes and Dangers of Excessive Thinness and Gives Some More Exercises for Developing Scrawny Necks.

Because of her perfect physical proportions, Pauline Furlong has been named the "American Venus." She is the author of "Beauty Culture at Home," and is an authority on all questions of woman's physical well-being. She will give a course of lessons to the women readers of The Evening World this summer on "How to Make Yourself Well and Strong and Preserve Your Figure."

LESSON XXI. By Pauline Furlong. Why is thinness a defect which you should try to overcome?

There are two reasons. In the first was extremely fierce fighting on the place, extreme thinness is a sign of heights of Little Reichacker Kopf, to bad health, or of constitutional weakthe westward of Muenster (in Alsace, ness, at the least. In the second place, the extremely thin woman grows old and ugly with abnormal

Vitality and all-round muscular development and perfect health depend upon well-nourished tissues. The thin woman may not feel ill—a nervous, hysterical energy is one of her symptoms—but the fact remains that her tissues have not received and are not received and are not received. The person who drinks a great deal of water will perspire profusely, showing that the pores of the skin, through which much waste is carried off, are "on the job." Water drinking has an equally beneficial effect upon the intesting and kidneys. When the not receiving proper replenishment from the blood. As I said the other day, she is not assimilating her food:

the blood as I the blood with impurities and the blood thus hamnot receiving proper replenishment its nourishing elements are not being utilized properly in the wonderful natural chemistry of the body.

THIN WOMEN ALWAYS IN DANGER OF BREAKDOWN. In one sense, abnormal thinness is a more dangerous malady than abnormal fatness, because the former is more subtle. Nature gives a warning to the stout woman by making her uncomfortable, particularly during the hot months. The thin woman is less lucky. She meanders along, feeling strong enough to perform the duties that fall to her lot. She is tired most of the time, her face is pale, she suffers from indiges-

is pale, she suffers from indigestion, catarrh and intestinal complaints. But she doesn't suspect that anything really serious is the evening we repulsed an enemy attack near Sondernach.

"An enemy biplane fell down under our fire in the forest of Parroy.

"In an aerfal fight over the muenster Valley three German airmen gained a victory over three adversaries of whom two were forced to descend into the valley of the Thann."

is pale, she suffers from indigestion in the floor, or in bed, placing a pillow beneath your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders. With your arms at your side, the middle finger just touching the carpet or sheet, throw your head as far back as possible. Then bring it as far forward as you can without moving your shoulders.

All these exercises may be performed from the touching the formation in the floor, or in bed, placing a pillow beneath your arms at your arms at your arms time her nervous energy buoys her up; she "lives on her nerves," as we

say. But sooner or later she succumbs under the strain and, in too many instances, fails to rally. That using up her principal of vitality; she has no savings account in the bank of health and strength.

As for the charge that thinness impairs a woman's beauty and makes her show age more quickly, it is unquestionably true. The woman who is thin to the point of emaciation rarely or never has a healthy skin. It is pale, sallow and-since there is not sufficient tissue under it-loose and inclined to wrinkle.

The first step toward overcoming extreme thinness is of course to build up the general health and strength. Your diet must be carefully revised and edited, as I have explained to you.

To-morrow I shall print sample menus for the thin woman, which is menus for the thin woman, which is menus for the thin woman, which is asks: "Will you tell me ful himself. But he is a shy, modest creature and was brought up to observe the strictest proprieties. He was horrified. He sent out hardened minions more fitted for such an investigation. They went forth, but returned with their neise empty. extreme thinness is of course to build will be capable of modification ac- come from there. Follow the diet for

cording to the taste and pocketbook of the individual reader.

But food is not the only factor to be considered in the problem of development. There is sleep. The time when deplenished tissue is most easily renewed and rebuilt is the period during which the body is completely relaxed in sleep, which has rightly been another to mediate the proper weight. Only the electric needle will permanently remove the hairs.

But in the camp they found names and addresses and evidence that the nature worshippers had gone back and you will see a vast improvement within several weeks.

MISS S. K. writes: "I weigh 130 pounds and am tail. I want to reduce the knows who they are and now that he knows they have their clothes on he is going to go after them and arrest them.

MISS S. K. writes: "I weigh 130 pounds and am tail. I want to reduce the pounds and addresses and evidence that the nature worshippers had gone back to civilization. The Sheriff says he knows who they are and now that he is going to go after them and arrest them.

"For," be says, quoting Mrs. Henry, "It is perfectly unspeakable." which has rightly been described as "renewal." Therefore the thir woman should spend as much time as she possibly can in sleep. WORRY AND LACK OF SLEEP

KEEP WOMEN THIN. The thin woman is usually nervou and indulge in an orgy of of the past day and those which the next day may bring forth. All I can say is "Stop it." You will

All I can say is "Stop it." You will never grow any stouter if you are constantly borrowing trouble. Particularly you must not lie awake at night, fretting and worrying and inviting insomnia. Drink a glass of hot milk before you go to bed and do your very best to think only of pleasant, soothing things. Then, before you realize it, you will be asleep and the good work of gaining flesh will be under way.

MRS. VER prevent the ging? Will in Follow the 15. Others scribed later, but only expended the good work of gaining flesh will be under way.

the good work of gaining flesh will be under way.

Another rule for increasing in weight is to drink as much water as possible. Don't drink it with your meals, as the best authorities are agreed that that practice interferes with digestion. But swallow a glass of clear, cool water as many times a day as you feel able to do so.

Water that has been kept on ice in a clean, covered receptacle is likely to be healthier than water in which ice has been put. Why do I advise the thin woman to drink it coplously?

Because inimany instances the rea-

and shoulders.

POUGHKEEPSIE, July 22.-It was bout three days ago that an old lady on the river side of a parlor car coming into Poughkeepsie thought she

saw them; it didn't seem possible; perhaps it was a sinful dream. Dazed she wheeled about on her husband in the next chair. His cheek was finttened againt the window and his eyes were almost popping out as he strained to look back down the track. "Henry!" she said. "So I DID see

There must be a certain amount of exercise, also, to keep the various physical organs functioning properly. Henry jerked back, upright, sneaked look about the car and tried hard to look innocent. The first movement is the same as the last one we tried yesterday, without the massage. Sitting erect in a straight-backed chair, turn your head as far over your left shoulder as possible, then equally far in the opposite direction. The trunk itself should not be moved.

For the other two exercises, lie flat

"I am ashamed of you," said the old lady. "It is perfectly unspeakable. You must telegraph the President of the railroad at once and have them arrested. Just tell him if it is not stopped at once we will use the West Shore after this. They weren't children either. They were full grown men and women. Four of them." She shuddered in horror. "You must have it stopped at once I tell you." Henry nodded virtuously and grimly.

"Certainly, my dear, certainly," he said. "You are quite right." Then he closed his eyes. He was

trying to bring back the vision-two ing as Diana's nymphs and the fauns of old, standing waist deep in the Frenchmen. Italians, Belgians, Rusclear water with their toes digging sians and a Montenegrin. into the clear sand of the bottom to hold them against the pull of the tide, legiance," said Justice Philbin, "must offices was not the only message to have any doubt as to his support found he was unable to return the will.
